INTRODUCTION

Over the last several decades, Jewish studies has evolved into a thriving discipline that explores every facet of Jewish history, culture, and religion. Despite the astounding growth of the field, one crucial subject still has not found its place within Jewish studies: theology. The relevance of studies to establish Jewish theology, or an academic subject serious with the long-standing debates about the place of theology within the University, has also the conventional mode of theology within Jewish religious life. In the larger disciplinary questions, it seems the fault between religious studies and theology has faded and there are signs that theology is moving to provide within academic. Even in this spirit, reading about the future of academic theology is correct, there is little reason to believe that Jewish theology will benefit from the tight walls between religious studies and theology. The fact is that both Jewish and Jewish studies have marginalized theology as an unimportant and peripheral, unless they are otherwise considered in conventional theology will present a neglected subject within the academic study of Judaism. For many scholars, this is still not good either because they think theology has not been an integral part of the Jewish tradition or because they fear that the study of Jewish theology will diminish Jewish studies' hard-won academic credibility. The claim that
