In *The Corrupt Classroom*, Lance Izumi reveals the shocking situation in many American public schools, from teachers politicking in their classrooms to one-sided curricula to unethical campaigns to mismanage fiscal mismanagement. Looking at both personal stories of parents and their children, plus key research evidence, he dramatically shows that when parents feel their children are being indoctrinated, victimized or shortchanged in their learning, they should have the right and the tools to exit the public school system for educational alternatives that better meet their children's needs.
